

PPTP VPN set-up guide for Windows 8

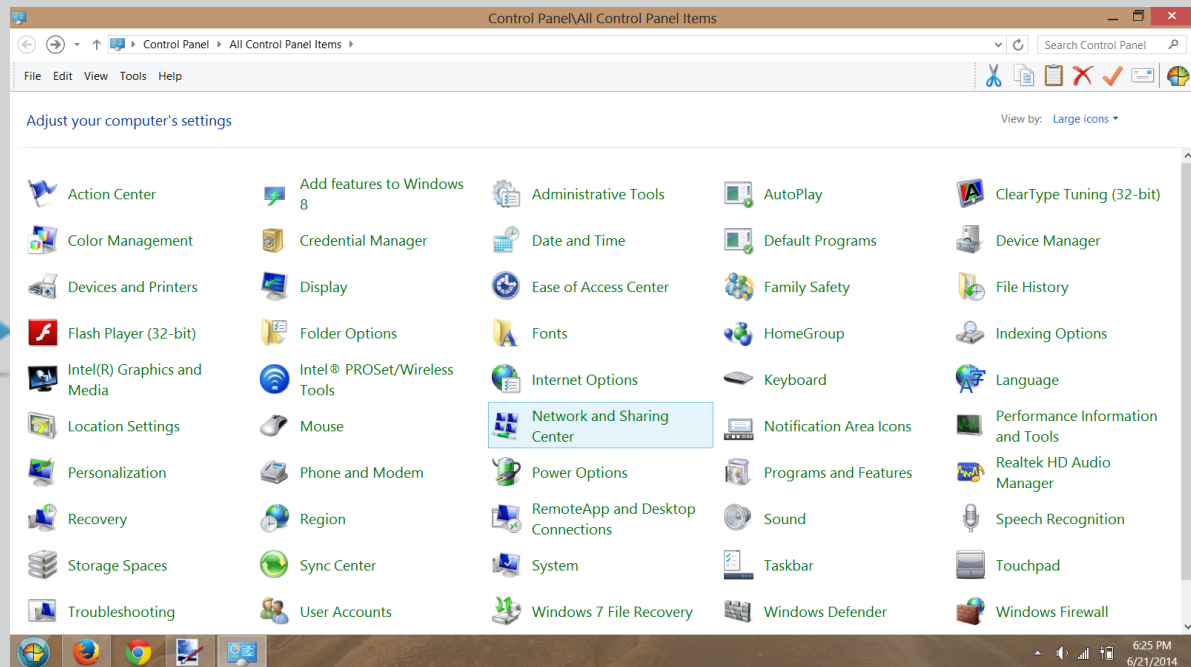

Access anything from anywhere in the world.

www.highspeedvpn.com

Step 1

Go to the Windows 8 Start Button and click on "Control Panel".
Or if you don't have your start button enabled right click in the bottom left corner and select "Control Panel" from the menu.
In "Control Panel" click on "Network and Sharing Center".

Step 2

In the "Network and Sharing Center" click on "Setup a new connection or network".

Change your networking settings

[Set up a new connection or network](#)

Set up a broadband, dial-up, or VPN connection; or set up a router or access point.

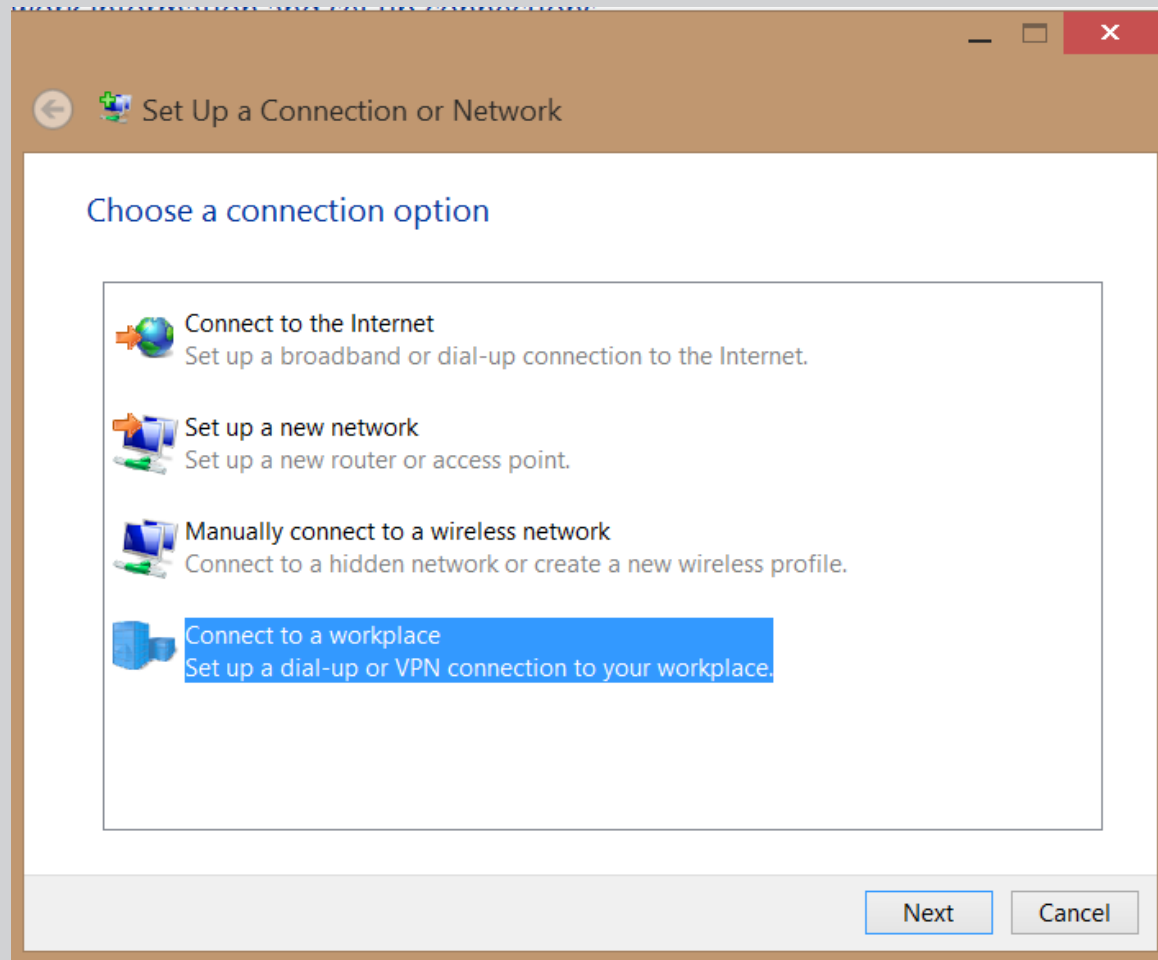

[Troubleshoot problems](#)

Diagnose and repair network problems, or get troubleshooting information.

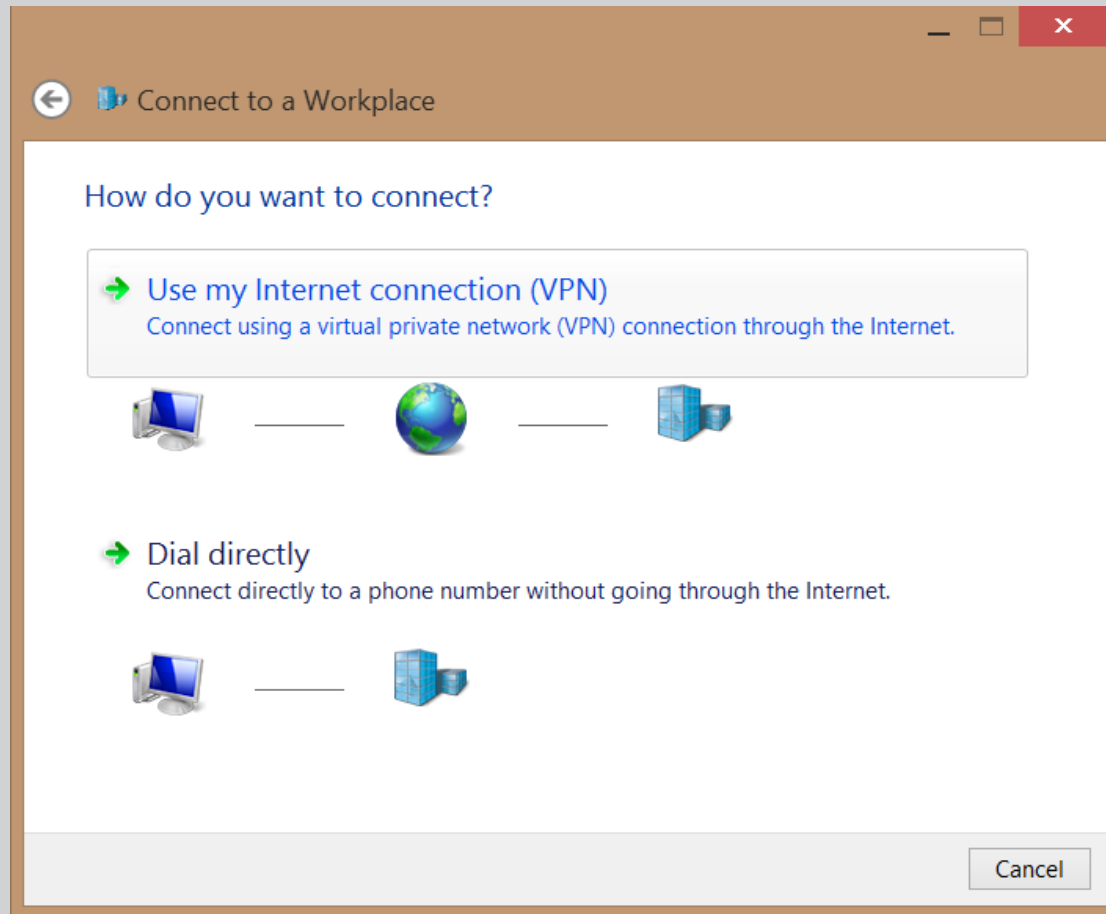

Step 3

Select **"Connect to a workspace"** and click **"Next"**

Step 4

Click "Use my Internet connection".

Step 5

Enter the server address from your greeting mail in the Internet Address box.

Enter "High Speed VPN" for destination name. Click "Create".

Connect to a Workplace

Type the Internet address to connect to

Your network administrator can give you this address.

Internet address: your high speed VPN server address

Destination name: High Speed VPN

☐ Use a smart card

☒ Remember my credentials

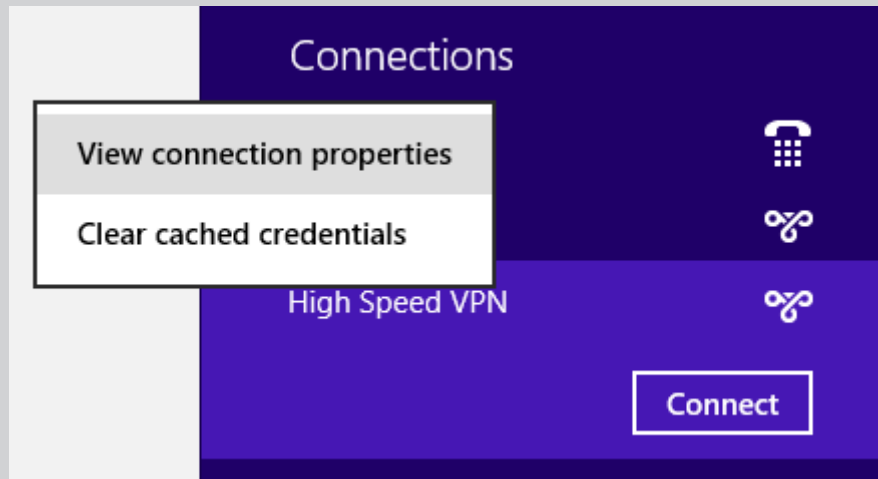

☐ Allow other people to use this connection

This option allows anyone with access to this computer to use this connection.

Create Cancel

Step 6

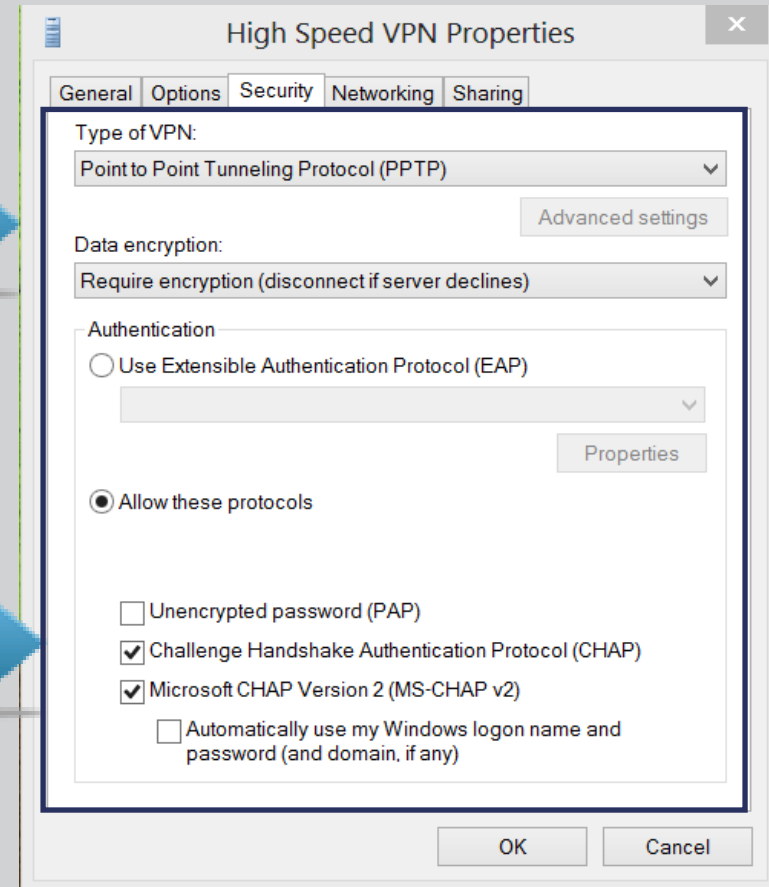

a) Select "Properties" on the "High Speed VPN" newly created connection.

Please make sure that:

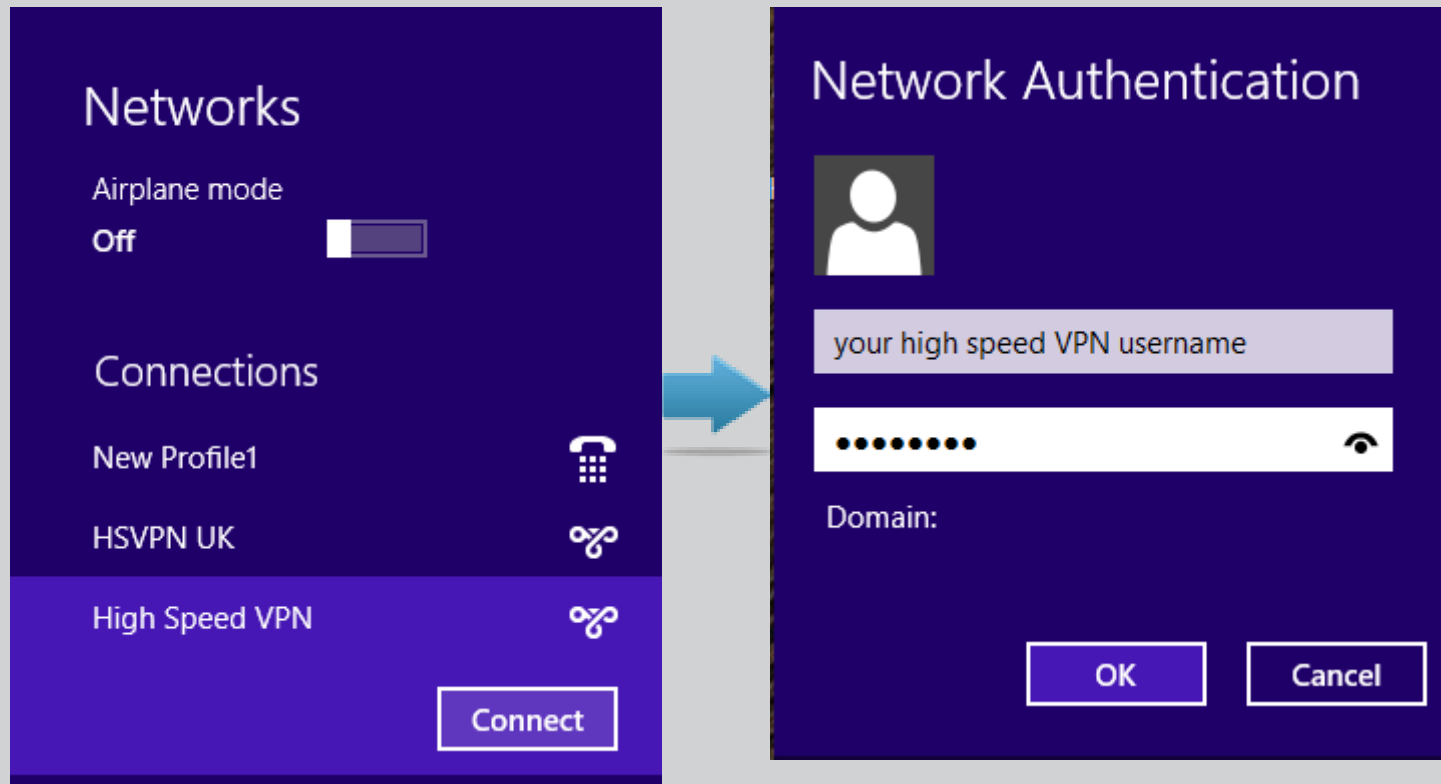

- 'Type of VPN' is 'PPTP'
- 'Data encryption' is set to 'Require encryption'
- 'Allow these protocols' is selected
- 'PAP' is not checked
- 'CHAP' is checked
- 'MS-CHAP v2' is checked
- 'Automatically use my Windows logon..' is not checked.

b) Go to the "Security" tab and make sure that your settings are the same as below. Click "OK" to save.

Step 7

- a) **Click "Connect" on the "High Speed VPN" connection in the "Connections" tab.**
- b) **Enter your HSVPN username and password and click "OK" to connect.**

Congratulations !

You are now connected to High Speed VPN:
