

PPTP VPN setup guide for Windows XP

Access anything from anywhere in the world.

Step 1

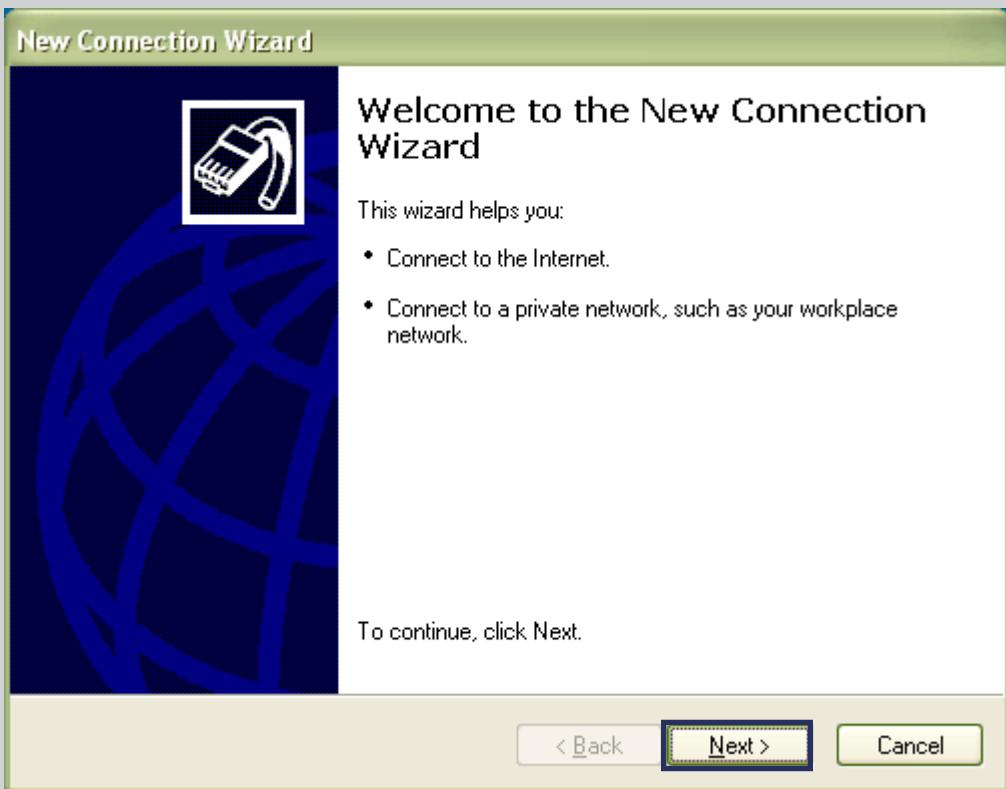

Go to the Windows XP Start Button and click on "Network Connections".

In "Network Connections" click on "Create a new connection".

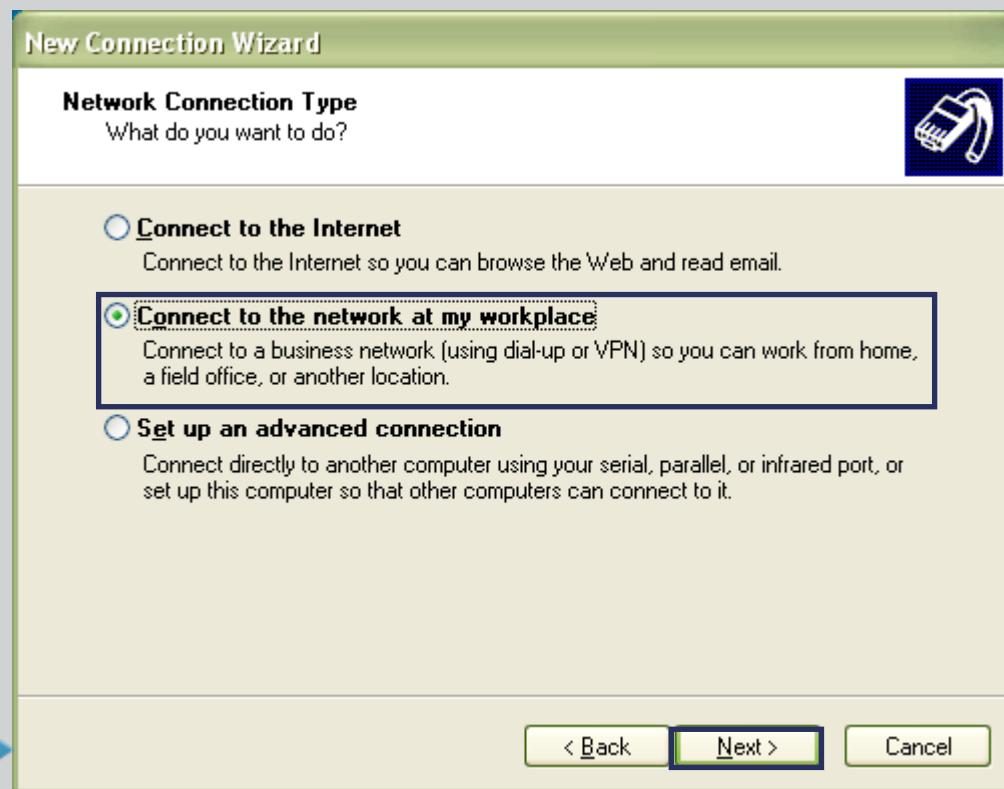

Step 2

a) Click "Next".

b) Select "Connect to the network at my workplace" and click "Next".

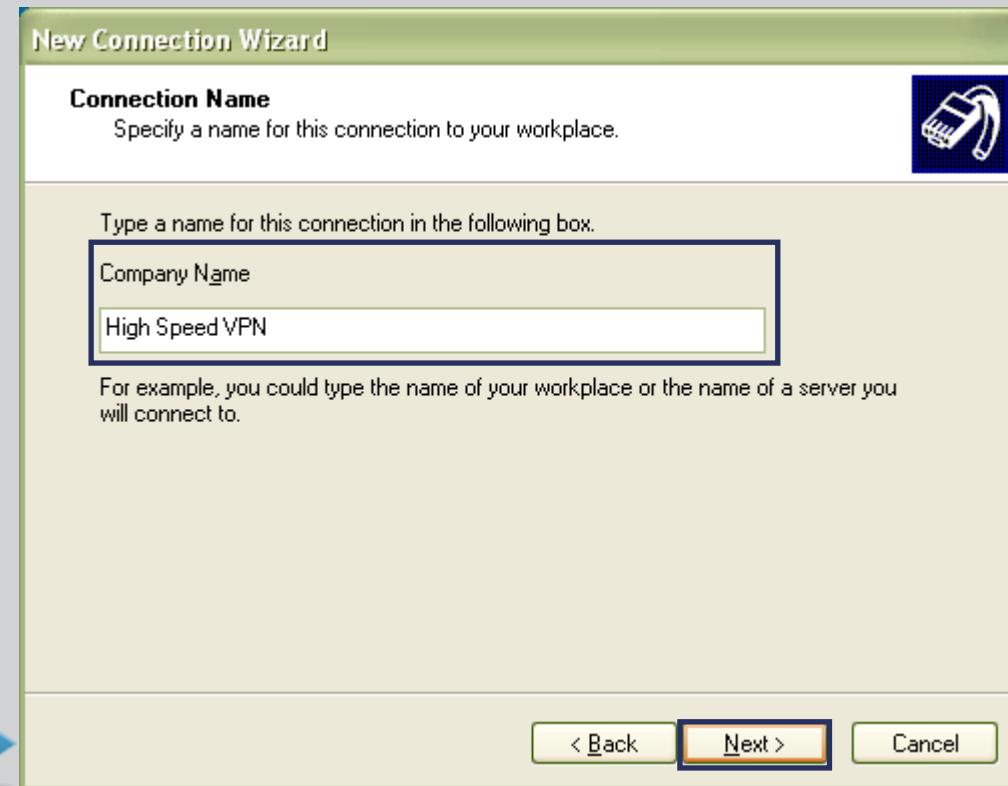

Step 3

- a) Select "Virtual Private Network connection" and click "Next".

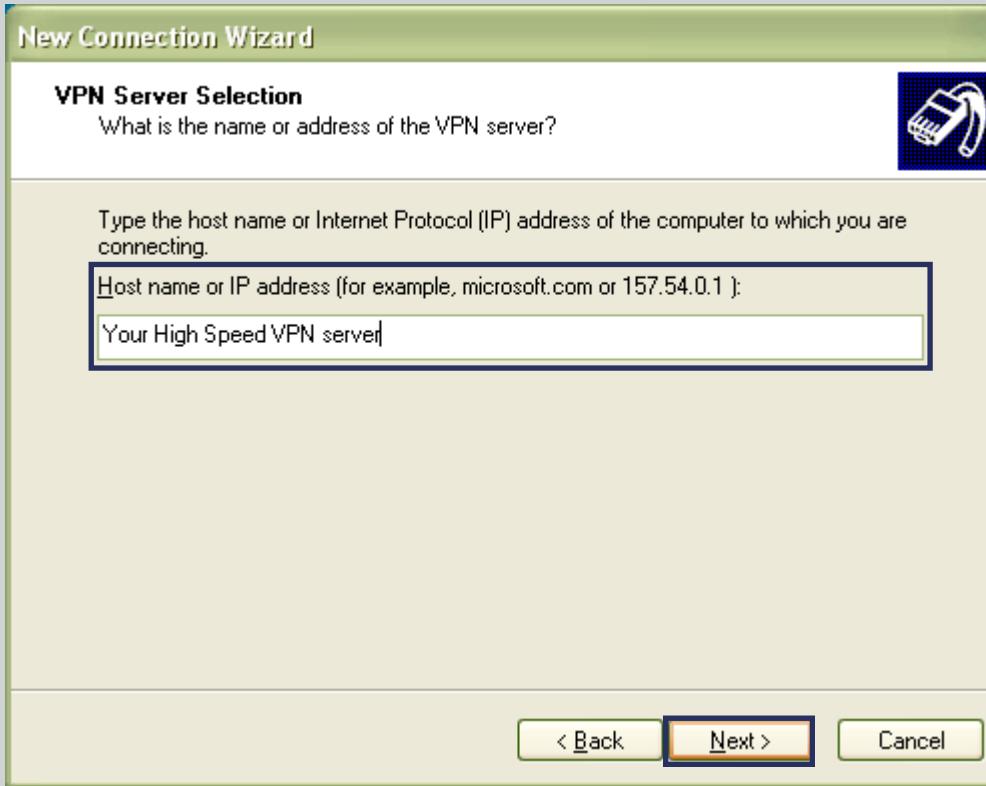

- b) Input "High Speed VPN" for "Company name" and click "Next".

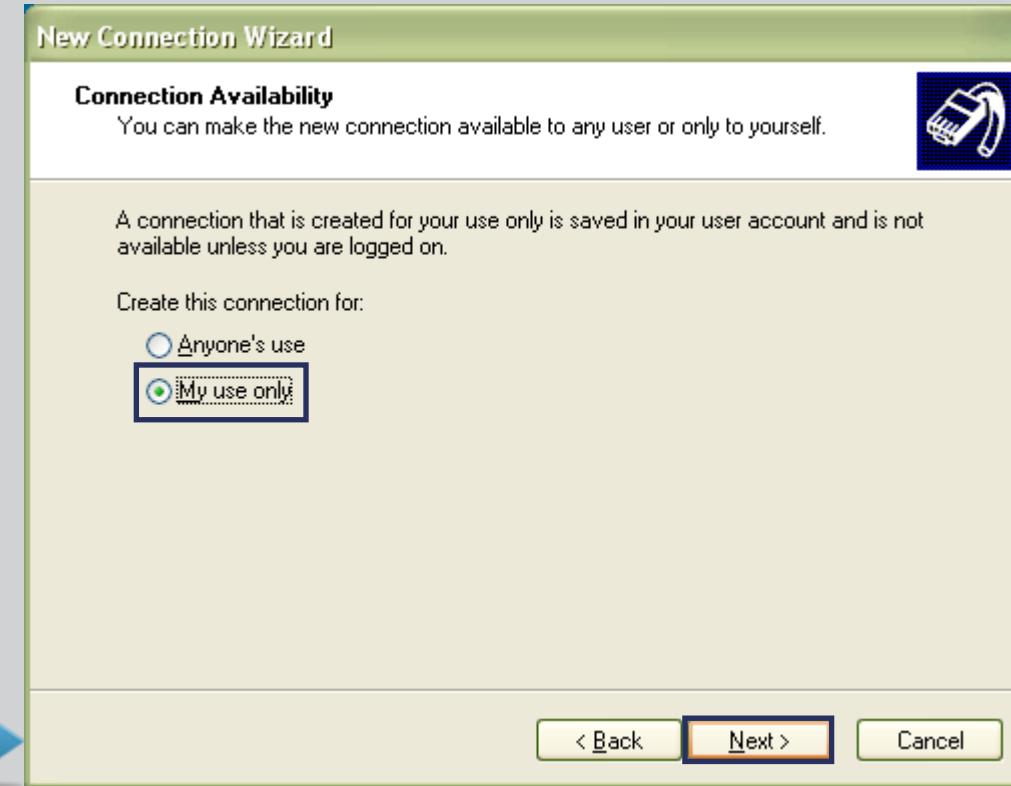

Step 4

- a) Input the High Speed VPN Server IP Address we provided you. Click "Next".

- b) Select "My use only" if you don't want to share the connection. Click "Next".

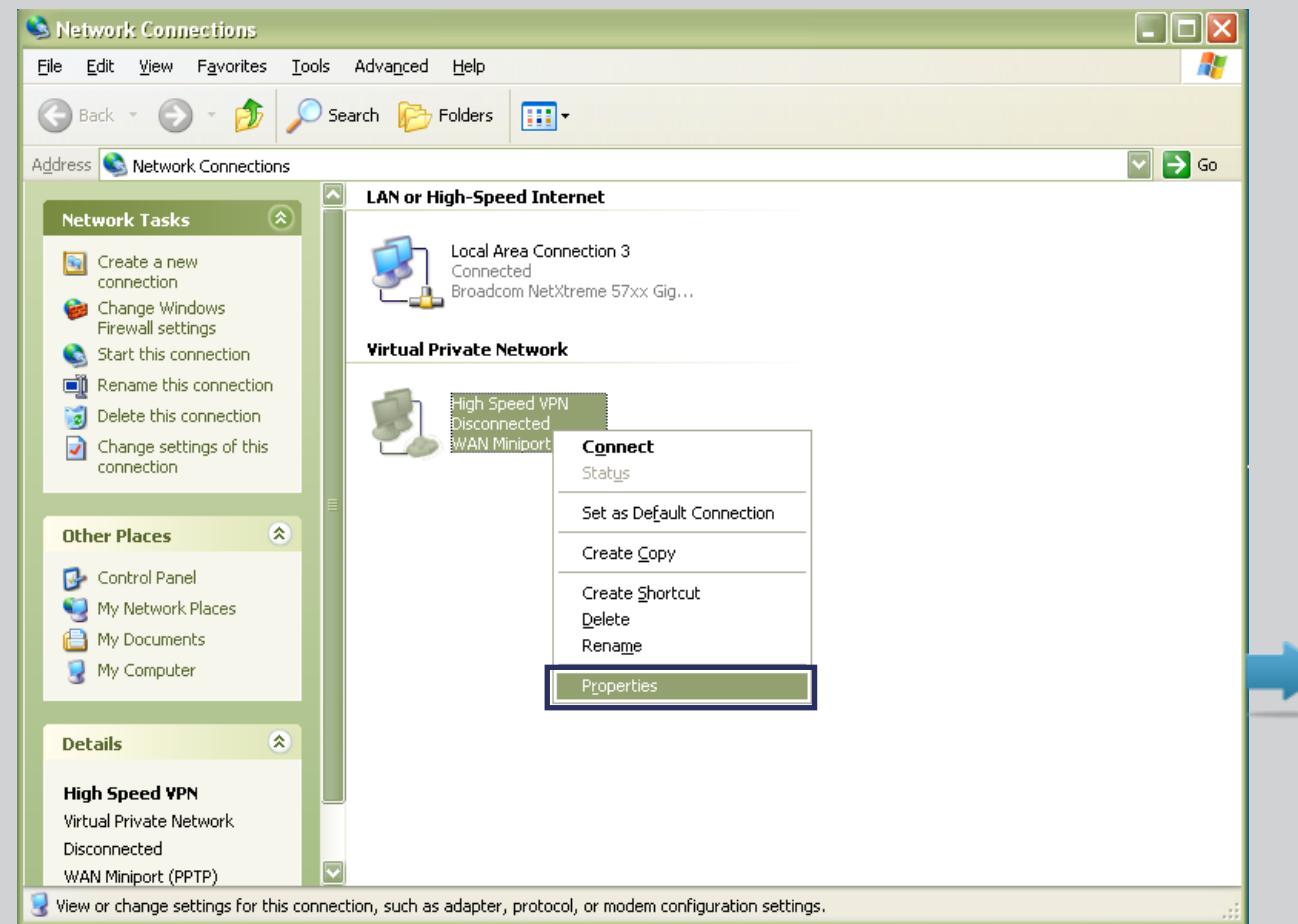

Step 5

Check "Add a shortcut to this connection to my desktop" and click on "Finish".

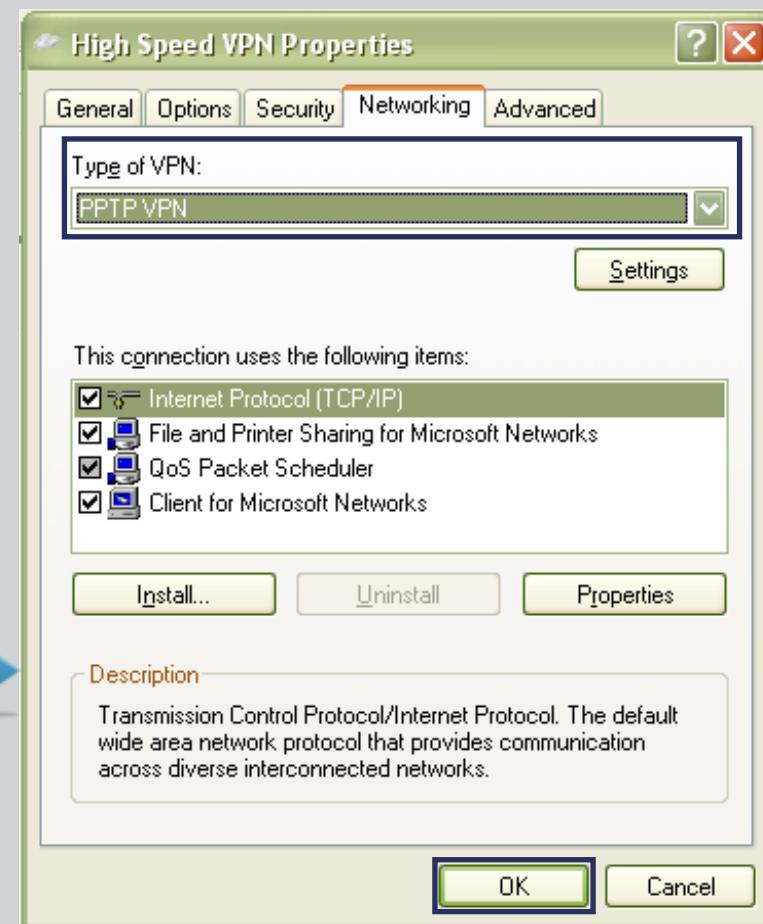

Step 6

a) Select "Properties" on the High Speed VPN newly created connection.

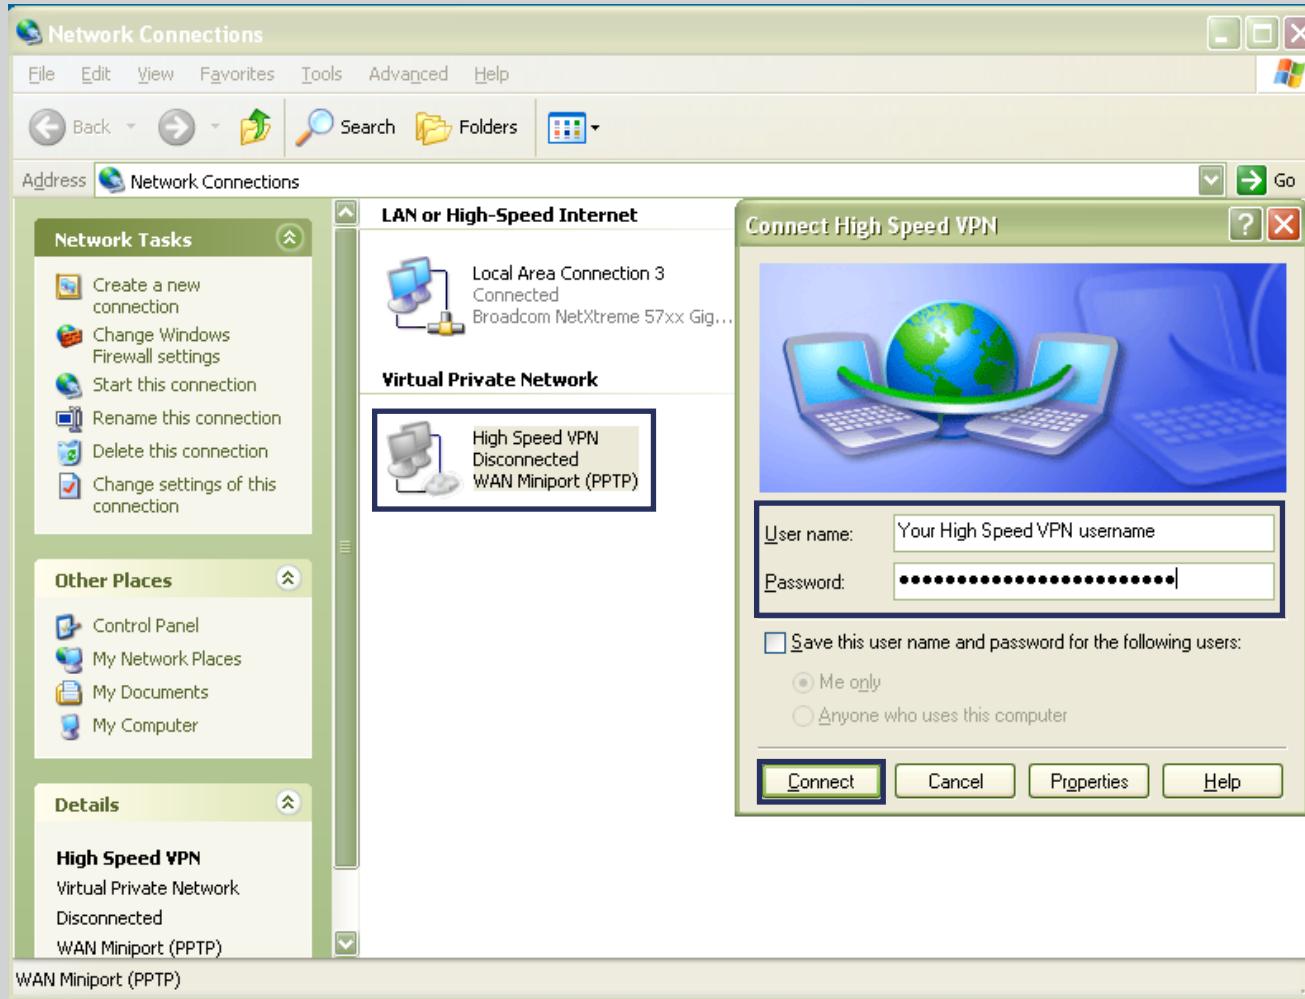

b) Go to the "Networking" tab and select PPTP VPN as "Type of VPN". Click "OK".

Step 7

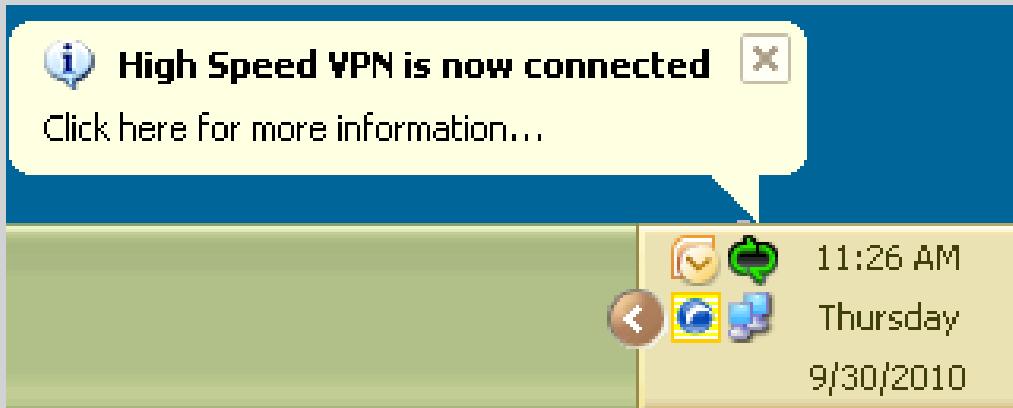

Double click the High Speed VPN newly created connection.

Input the High Speed VPN user name and password we provided. Click "Connect".

Congratulations !

You are now connected to High Speed VPN:

Thank you for your time and consideration.

**Please contact us if you have any problems setting up
your connection with High Speed VPN.**
